Note: The Series Portfolio (which includes the Collateral Securities) is pledged to BNYM as the Collateral Agent for the Noteholders and equals the Note Principal Amount. A copy of the most recent capital account statement is available by request at operations@lucidma.com.

Report Notes

1. Target returns based on the program manager's estimate of the projected returns for the respective series based on current market conditions.
2. Current coupon (estimated) is based on the rates of the invested portfolio of the Related Fund Interest as of the current period start date. Actual rate set in arrears based on the final net returns of portfolio.
3. Annualized net returns quoted on an Act/360 basis after all program costs. Historical returns assume reinvestment at the respective Series return, money market index, Libor rate or T-Bill Index rate at the end of each period. Libor is the applicable USD London Interbank offered Rate for each calculation period, as published by the ICE Benchmark Administration Fixing. T-Bill is the offer rate for the T-Bills with a maturity matching the respective coupon period (or interpolated rate if the dates do not match). Crane Prime Institutional Money Market Index adjusted to an Actual/360 basis (for Prime notes) and Act/365 for USG Notes, based on the daily average for the periods. A1/P1 CP is dealer placed commercial paper corresponding to the period as published by Bloomberg. SOFR is the term reference rate for the applicable period (e.g. 1m or 3m) as published by the CME Group.
4. Over-Collateralization Rate ("O/C Rate") of the repo investments securing the notes in the Related Fund Interest as of the business day prior to the end of the most recent period. O/C Rates will vary each period based on the specific risk characteristics of the collateral securities that meet the Lucid risk management standards. O/C Rate equals the market value of the collateral as a proportion of the respective repo investments. Eligible repo collateral details and classifications for the respective Series as fully described in the private offering memorandum. Historical Returns based on the investment program series performance since inception in the related fund series or notes; accordingly, specific Secured Notes that reference the series (e.g. M-1, M-2) purchased in the middle of coupon dates or issued after the inception date may have different returns based on inter-period issuances or different holding periods. Please review the specific interest rates for the respective secured note CUSIP on page 2 for the specific returns applicable to the note.
5. Program AUM based on the amounts invested in the series strategy through the Secured Notes or directly in the related fund entity (Lucid Prime Fund LLC). For each program series (e.g. Series M), the returns of the Secured Notes and direct investments in the related fund are the same given the program structure. Lucid Platform AUM is the contracted assets under management as of the report date.

Please refer to the Private Placement Memorandum and the Series Supplement for complete details.

Money market investments including repurchase agreements are not suitable for all investors. Past performance is not necessarily indicative of future results. Prior to entering into a transaction you should consult with your own legal, regulatory, tax, financial and accounting advisers to the extent you deem necessary to make your own investment, hedging and trading decisions. Any transaction between you and Lucid will be subject to the detailed provisions of a private placement memorandum or a managed account agreement relating to that transaction. Additional information will be made available upon request.

The indicative information in this document (the "Information") are provided to you for information purposes only and may not be complete. Any redistribution of this document without express written consent of Lucid is prohibited. No part of this material may be reproduced in any form, or referred to in any publication, without express written consent of Lucid. This presentation should only be considered current as of the date of the publication without regard to the date on which you may have accessed or received the information. Unless required by law or specifically agreed in writing, we have no obligation to continue to provide to you the Information, and we may cease doing so at any time in our sole discretion.

Targeted Return Disclosure

The targeted returns included in this presentation are not intended as, and must not be regarded as, a representation, warranty or prediction that any Fund (or series thereof) will achieve any particular rate of return over any particular time period or that any Fund (or series thereof) will not incur losses. Although Lucid believes, based on these factors, that the referenced return targets are reasonable, return targets are subject to inherent limitations including, without limitation, the fact they cannot take into account the impact of future economic events on future trading and investment decisions. These events may include changes in interest rates and/or benchmarks greater than those occurring within the historical time period examined when developing the return targets, or future changes in laws or regulations. All targeted returns are net of Lucid's anticipated fees and expenses.
